

Station Contests Made Easy

PrizeWatch from RCS helps you manage contests/prizes and save time. It's your No Fuss, No Hassle, paperless software program that takes the complications out of contests.

From Phone to File

Add contest winners fast and capture names, addresses, driver's license, birth dates, phone numbers, e-mail addresses and electronic signatures.

Clone a Contest

PrizeWatch lets you drag and drop prize items into an easy to use workflow. What if a contest happens every week, on a specific day? You can put together the contest once, then use PrizeWatch's recurring contest feature to clone the contest to other times.

A Complete Record

The Powerful Prizelist report in PrizeWatch helps you see what contests ran and what was given away. No reason to have unclaimed prizes clutter your prize closet; now you can generate a report of what needs to go. Keep your eye on your prize inventory, so you can alert your suppliers when you're running low.

World Class Support

Our Support department is legendary. All the people who help you solve your day to day problems are radio people, too. RCS Support never sleeps and is always open 24/7/365 for PrizeWatch users worldwide.

Features

- Set up multiple stations and users with specific rights per station.
- Read/Write Access, Read Access or Deny Access.
- Create customized PrizeWatch screens per user.
- Drag and drop prizes to create contests. Contests are created for a specific date and a specific daypart.
- Add contest winners by entering information such as name, address, driver's license, birth date, gender, phone numbers and e-mail addresses.
- Retrieve an electronic signature utilizing a Topaz SignatureGem Signature pad.
- Maintain and track prize inventory as well as supplier information.

Technical Requirements

Server

- SQL Server 2005 or 2008 required

Client Requirements

- Operating Platforms Windows XP & Windows 7
- Microsoft.NET Framework 3.5 installed

Verify the appropriate .NET security level (full trust) has been granted to Local Intranet. A Topaz SignatureGem Signature pad is required for capturing electronic signatures. The drivers for this device are installed with PrizeWatch, so there is no configuration required.
